Frank/Marcia,

Quickly discussed the request below with Wendy today.

She's looking for some analysis - not total universe of folks selected and mailed the 95 Legends package - but among individuals who participated (raised their hand) by responding to the 800# provided in the package. It may be a small number.

Are you able to provide counts and records (with OCR codes) of the 800# responders so we can profile? If so what's the timing?

Please let's discuss specifics ASAP.

Thanks,

Margaret
